

Lumsden Public Works

7/13/10

Equipment:

- Unit #90 crawler loader: waiting to hear back from Kramer and looking into some options from Marcel Equipment.
- We will be doing our power mobile equipment training on July 21st and 22nd.

Landfill:

- Litter picking at the landfill is 90% complete.
- Kenneth Hunter Scrap Metal Recycling has been contacted to remove the metal pile.

Drainage:

- Ditch repairs are being done as time permits.
- Pumping of the ox bow at River Park is on going.
- Replacement of drainage structure 1A-3 update. Dave and myself are to meet with Sask Water Shed Authority on August 24th to review the drawings and look at a schedule for the project.

Roads:

- Erosion repairs are going on in many areas around town.
- Dust Control: Complete
- Crack sealing has been cancelled for this year.
